I would be honored to represent my peers in the local community. As a Citizens Advocate I pledge to represent you with the utmost respect and will consider all facets before voting on any issues that pertain to personal, business and property rights of those I represent.

I believe and support:

1. Citizens Civil Rights & Eminent Domain (Property Rights)
2. Our Country's Founding Documents and American Values
3. Elected officials are servants of the people; (government of the people, by the people, for the people) - *President Abraham Lincoln*
4. Those who govern must be frugal in their spending habits; (excessive, reckless spending is an irresponsible act)
5. In less taxation; which is a direct reflection of Government Entitlement Behavior
